

419L

Power Steering Pump Mount
Short W.P. Serpentine
Small Block Chevy

NOTE: When installing the mount, start all bolts and mount the Power Steering Pump before tightening.

Note: If your pump has threaded mounting holes it will be necessary to drill them to 5/16"

Note: This bracket is designed for the G.M./Saginaw TC metric power steering pump also referred to as the type II pump.

As with any part of this nature, make sure it fits your application before painting or plating. Parts that have been painted, plated, or modified may not be returned.
